## **INDEPENDENT AUDITORS' REPORT**

To the Directors of,  
The Food Bank of York Region.

### **Qualified Opinion**

We have audited the accompanying financial statements of The Food Bank of York Region, which comprise the statement of financial position as at **December 31, 2023** and the statements of changes in net assets, operations and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial resources of the Organization as at **December 31, 2023** and the results of financial activities, its changes in resources and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

### **Basis for Qualified Opinion**

In common with many charitable organizations, the Organization derives revenue from donations, the completeness of which is not susceptible of satisfactory audit verification. Accordingly, our verification of these revenues was limited to the amounts recorded in the records of the Organization and we were not able to determine whether any adjustments might be necessary to contributions, excess of revenues over expenses, current assets and net assets.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of The Food Bank of York Region in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is responsible for assessing The Food Bank of York Region's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate The Food Bank of York Region or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing The Food Bank of York Region's financial reporting process.

## ACCOUNTING | TAX | ADVISORY

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Food Bank of York Region's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on The Food Bank of York Region's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause The Food Bank of York Region to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**PURPOSE OF THE ORGANIZATION**

The Food Bank of York Region changed its name during the year from LifeCorps International and was continued under the Canada Not-for-Profit Corporations Act. The Food Bank of York Region is a Canadian Registered Charity dedicated to relieve poverty by operating food banks and soup kitchens and providing basic necessities of life, including clean water and clothing for individuals or families who are in need, and by collecting and distributing food and basic necessities of life to organizations that provide food and assistance within Ontario and Canada. Additionally to promote health by protecting and maintaining public health through the operation of a food literacy and nutrition program to slow the development and progression of disease.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

These financial statements are prepared in accordance with Canadian Accounting Standards for Not-For-Profit Organizations (ASNPO) and include the following significant accounting policies:

**Donated Materials and Supplies**

Donated materials and supplies are recorded at their fair market value at the time of the donation. During the year \$9,287,677 (2022 - \$6,592,489) was recorded as donations consisting primarily of food donations. If the donating organization discloses the value of the goods then that is used as the fair market value. If the value is not disclosed then the organization uses a standard rate per unit of measure as the fair market value.

**Use of estimates -**

The preparation of the financial statements in conformity with Canadian Accounting Standards for Not-For-Profit Organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Significant items subject to such estimates and assumptions include allowance for doubtful accounts, the estimated useful lives of property, plant and equipment (including deferred capital contributions); the valuation of inventory and contributed materials and supplies. Actual results could differ from those estimates.

**Financial instruments -**

The Organization initially measures its financial assets and liabilities at fair value.

The Organization subsequently measures all its financial assets and financial liabilities at amortized cost, except for investments in equity instruments that are quoted in an active market, which are measured at fair value. Changes in fair value are recognized in net income.

Financial assets and liabilities measured at amortized cost include cash, short-term investments, accounts receivable and accounts payable and accrued expense.

There are currently no financial assets and liabilities subsequently measured at fair value.

**THE FOOD BANK OF YORK REGION**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**DECEMBER 31, 2023**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued**

**Financial instruments - continued**

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of any write-down is recognized in net income. Any previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is no greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. Any reversal is recognized in net income.

**Cash and cash equivalents -**

The Organization's policy is to present under cash and cash equivalents; bank balances at a registered financial institution including a GIC.

**Revenue recognition**

The Organization follows the deferral method of accounting for donations.

- Unrestricted donations are recognized as revenue when received.
- Externally restricted donations are deferred and taken into revenue when the funds are spent.
- Donations restricted for the purchase of capital assets are deferred and amortized into revenue at an amount equal to the amortization of that group of capital assets.
- Externally restricted donations used to purchase land are recorded as a direct increase in net assets invested in capital assets.
- Donated materials and supplies are only recorded as revenue when the estimated fair market value of the items donated can be supported within the policy set out by the Charities Directorate of the Canada Revenue Agency.

The Organization generates service charge revenue from Agencies to which it contracts with. Service charge revenue is determined by a unit fee per unique individual served by the agency. Revenue is charged annually and recorded when invoiced.

**Short term investments**

Short-term investments are valued at the lower of cost and quoted market value.

**Inventory**

Inventory consists of donated materials and supplies and is recorded within the policies set out within revenue recognition. Additionally, the Organization purchases fresh food when funding is available, this inventory is stated at the lower of cost and market value. Market value is considered as replacement value or estimated realizable value, whichever is lower. There is no purchased inventory on hand at year-end.

**Contributed services -**

Volunteers contribute many hours each year to assist the Organization in carrying out its activities. Because of the difficulty of determining its fair value, contributed services are not recognized in the financial statements.

**Allocation of common expenses within designated disbursements -**

The Organization engages in a number of activities for which it receives designated funding. While engaged in these activities, the Organization incurs common expenditures as allowed by the various funding providers. These common expenditures have been reallocated from common expense accounts to the designated disbursement account as allocated in (Note 8).

**NOTES TO THE FINANCIAL STATEMENTS**  
**DECEMBER 31, 2023**

## **2. FINANCIAL RISKS AND CONCENTRATION OF RISK**

The Organization is exposed to the following risks related to its financial assets and liabilities:

### **Liquidity risk -**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Organization is exposed to this risk mainly in respect of its accounts payable, accrued expenses, obligations under capital lease and deferred grants and donations carrying external restrictions. The Organization expects to meet these obligations as they come due by generating sufficient cash flow from operations. There has been no change in the risk assessment from the prior period.

### **Credit risk -**

Credit risk arises from the possibility that the entities to which the Organization sells services may experience financial difficulty and be unable to fulfil their contractual obligations. This risk is mitigated by proactive credit management policies that include regular monitoring of the debtors' payment history. The Organization provides credit to funders through contracts, receivables are concentrated to funding organizations where management is of the opinion that risk is minimal. Actual exposure to credit losses has been minimal in prior years. There has been no change in the risk assessment from the prior period. At year-end, the allowance for doubtful accounts is \$0 (2022 - \$0).

### **Market risk -**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk.

### **Foreign currency risk -**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Organization is not currently exposed to foreign currency risk. There has been no change in the risk assessment from the prior period.

### **Interest rate risk -**

Interest rate risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market interest rates. The Organization is mainly exposed to interest rate risk through capital lease obligations. The exposure to this risk fluctuates from year to year. The risk has increased from the prior period due to the implicit interest in the lease extension on the 2017 Hino.

### **Other price risk -**

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Organization is not exposed to other price risk. There has been no change in the risk assessment from the prior period.
